

Designed for Comfort. Powered by Intelligence.

Intelligent room technologies that work quietly in the background, so guests enjoy comfort and privacy while hotels run efficiently.

Smart Technology. Silent Comfort.

Guest Room Management

Privacy & Service

Energy-Aware Automation

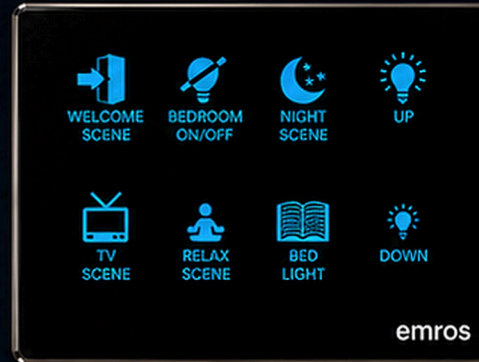

Custom Interfaces, Precisely Configured

The panels shown here are example configurations. We customize icons, button count, functions and layout to match your project requirements.

1. Thermostat

Temperature, fan mode and auto control in a sleek digital interface.

2. Scene & Lighting Control

One-touch access to guest scenes such as welcome, night, TV and relax.

3. Key Card Power Switch

Elegant power activation for occupied-room energy control.

4. Room Number Signage

Premium illuminated room identity with service and call status indication.

Built Around Your Project

Exact Button Count
Configured as per your requirement.

Custom Icons & Labels
Match your brand, language & style.

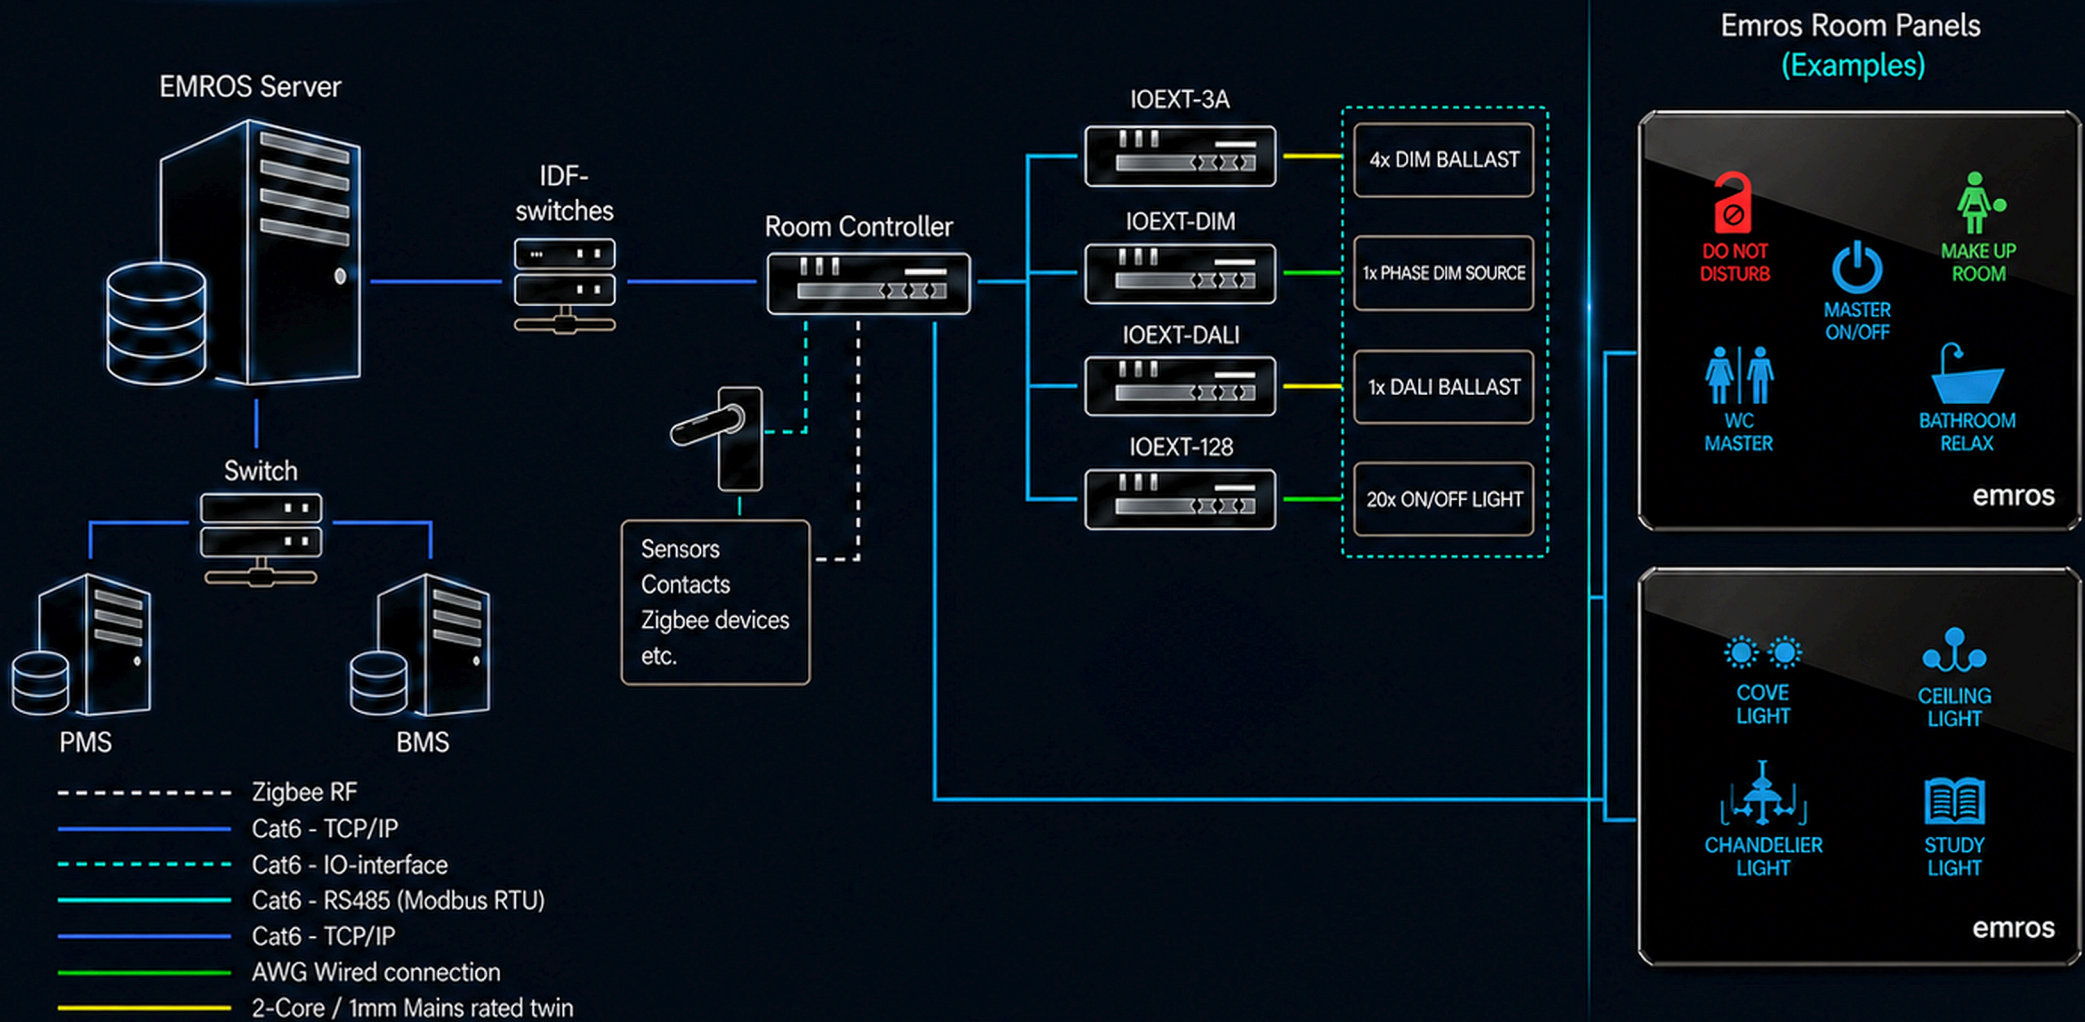

Project-Specific Functions
Only the functions you need, nothing extra.

Finish & Branding Alignment
Consistent with your interiors and brand standards.
